## RAYs of Hope

**Moffitt Cancer Center** opened its doors in 1986 and has quickly risen to prominence as an international leader in cancer research and treatment. It has been consistently named in *U.S. News & World Report's* "Best Hospitals" list and the only Florida-based cancer center designated by the National Cancer Institute. Moffitt's sole mission is "to contribute to the prevention and cure of cancer." And with its Total Cancer Care approach, it is making personalized cancer care a reality. Moffitt's physician-scientists are researching the genetic makeup of a patient's tumor, and then using that information to develop individualized treatments as unique as a fingerprint. Total Cancer Care also enables Moffitt to identify and meet all the needs of patients, from nutrition to pain management and spiritual support. 12902 Magnolia Drive, Tampa; (888) MOFFITT (663-488) or [www.INSideMoffitt.com](http://www.INSideMoffitt.com)
